State of Developer Nation Community

STATE OF THE DEVELOPER NATION COMMUNITY

HELPING DEVELOPERS BE THEIR BEST

The Community

Developer Nation is a global community of over 94,000 software creators who want to influence the future of how software is built.
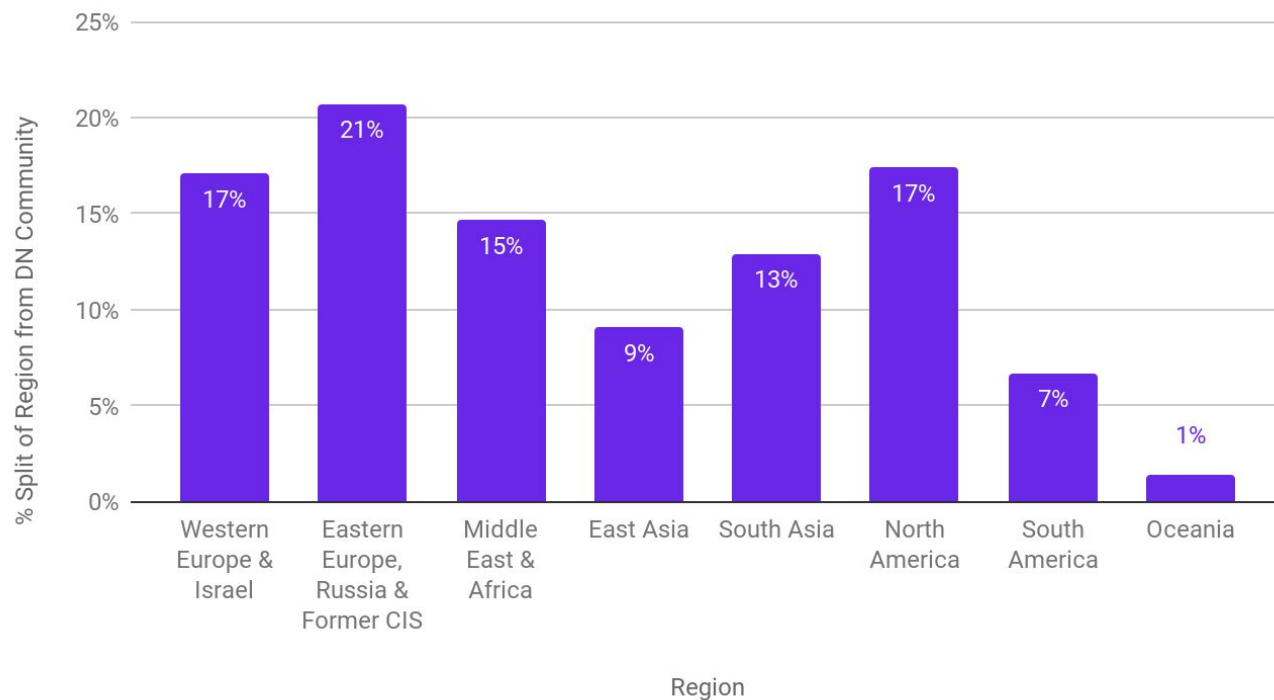

Our developer research program

Every year, we listen to what 30,000+ developers in 165 countries have to say about their projects, learning aspirations, and needs.

Helping
developers be their best

DEVELOPER NATION COMMUNITY

Data Delights

Bleona Bicaj · 23 hours ago · 4 min read

The rise of low-code / no-code development platforms

Low-code / no-code (LCNC) tools provide a visual approach to software development by automating parts of the application development process. These solutions allow developers, even without prior software development experience, to easily build applications, leading to potential time and cost efficiencies. To understand how the adoption of LCNC tools has evolved over the past 18 months, we draw data and insights from SlashData Q1 2022 and Q3 2023 global developer surveys. This begs the question, **to what extent are developers using LCNC tools for their development projects?**

Usage of Low-Code No-Code tools in development projects

Over the past 18 months, the percentage of developers using LCNC tools in their projects has substantially increased, from 46% to 57%. Furthermore, 32% report using these tools for at least a quarter of their development work as of Q3 2023 (up from 26% in Q1 2022). This suggests that not only are LCNC tools becoming more popular amongst developers, but a significant proportion of them are incorporating them in

DEVELOPER NATION COMMUNITY
2nd Developer Wellness Survey

Our second deep dive into the wellbeing of our developer community

Why we run these?
To complete our mission to foster a healthy and thriving developer community!

Key facts
Our survey ran from 7 to 21 March 2024.
Report will launch April 15

The report will cover developers' wellness journey with insights on burnout, stress management, exercise habits, and how tech industry layoffs have impacted developer mental wellbeing.
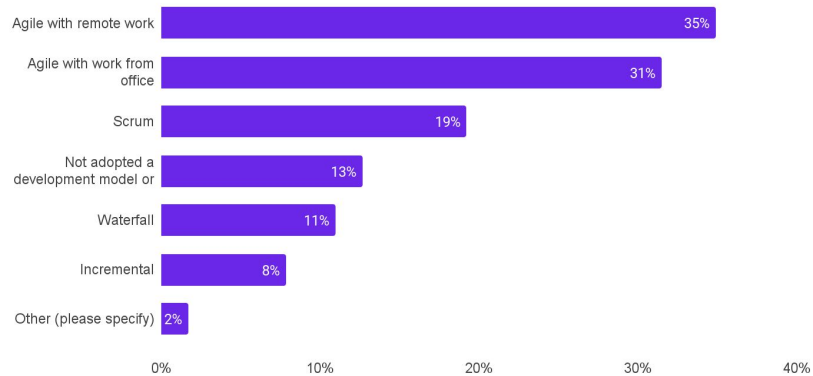

Sneak peek...

DEVELOPER NATION COMMUNITY
## 2nd Developer Wellness Survey

What software / product lifecycle development model or philosophy has your company adopted?

% of developers (n=702)

Category	%
Agile with remote work	35%
Agile with work from office	31%
Scrum	19%
Not adopted a development model or	13%
Waterfall	11%
Incremental	8%
Other (please specify)	2%

In the past 3 months, have you experienced feelings of loneliness?

% of developers (n=969)

Category	%
No, never	20%
No, rarely	22%
Yes, occasionally	34%
Yes, frequently	21%
Not sure / I don't know	3%

55% of developers have experienced feelings of loneliness frequently or occasionally in the past 3 months
